Dear Reader,

Thank you for downloading this record book. I have long admired the detailed state meet programs and state record books published by the MPSSAA. I desired similar record books for the Montgomery County Championship Meets, but no such books existed. Furthermore, detailed meet results were all but lost to newspaper archives. To me, this was not acceptable in the digital world in which we live today.

I sought out results for every county championship meet for cross country, indoor track, and outdoor track. This involved many hours at a microfilm machine and digging through old boxes of files belonging to coaches who hang on to such things. Many more hours were spent organizing the collected data so that the results are now available online and sorted several ways in this record book. After sifting through the data found in these pages, I know that you will agree that the effort was well worth it.

Mocorunning.com has been a source of cross country and track & field news, results, statistics, analysis, and photographs for Montgomery County since 2006. Mocorunning.com is not affiliated with MCPS, but it is owned and operated by a proud product of Gaithersburg High School. I hope that you enjoy reading this book as much as I enjoyed creating it.

## **Montgomery County Cross Country Championship Meet History**

What is a county championship meet? From the mid-1980's and thereafter, the answer is obvious: it is the meet where every team in the county competes for bragging rights to secure a county ranking for the year, or better yet: a county championship title. Presently, the county championship is a meet that coaches and athletes circle on their calendars every year. It is a celebration of the best young runners in our community, regardless of school size or classification.

That definition of a county championship was not the definition known to coaches and athletes prior to the mid-70's. In the early-to-mid 70's, the term "county meet" referred to the collection of district meets. The district meets were the qualifying races for the state championship meet. The districts were divided into classifications: "AA" (largest), "A", "B", and "C" (smallest). Sometimes, the smaller classifications were combined into "BC" or "ABC" races. These district meets usually consisted of only Montgomery County schools and therefore the combination of district races was also referred to as the county championship meet. Multiple county champions were named each year - one for each classification. Those early county champions prior to 1977 were more akin to today's regional champions.

The present day notion of a "classless" county championship meet was in a sense born out of the evolution of women in running. Dottie Rowe from Gaithersburg High School was the first female high school runner in Montgomery County. In 1971, Rowe petitioned to run on the boys cross country team at her school. After initially being denied, that ruling was overturned and she ran with the boys team for the season. That paved the way for girls cross country in Montgomery County. (Williams, 1977)

By 1973, there were enough female runners in Montgomery County that some schools could field complete girls teams with five or more girls. These teams could compete in dual meets and invitationals, but cross country was not yet an official sport sanctioned by the MPSSAA for girls. Because there were no state championship races for girls, there were also no district meets for girls and the season might have ended abruptly after the last scheduled invitational meet. Instead of allowing this to happen, B-CC High School head coach Kerry Ward organized the first county championship meet for girls, a 2.3 mile hilly run at Lake Needwood. The inaugural race was completed by 37 girls. B-CC won that first team title behind individual champion Gale Morse (13:46). Whitman (2nd), Gaithersburg (3rd), and Springbrook (4th) were the other complete teams. Some of the participants nicknamed the meet the "Ms. Cross Country Championship" as an effort to draw attention to the fact that girls were running cross country. (Boss, 1973)

Under leadership of Coach Greg Dunston, Woodward High School took over ownership of the girls county championship meet in 1974 before finally in 1975 cross country became an officially sanctioned sport for girls in Maryland. Due to low statewide participation, there would be only one state championship race for girls with all classifications combined into one (as opposed to four boys' classifications). The girls then had a state-qualifying district race just like the boys, and because all classifications were combined into one, the district race for girls was exactly the same as the previous two county championship meets for girls.

In 1976, the state and district levels divided girls into two classifications based on school size, "AA" and "ABC." This ended the "classless" county championship race in Montgomery County, but one coach kept the idea alive. Coach Allan Bellman of Kennedy High School pushed for a true county championship meet, and his idea was realized with all teams combined into a single race in a new county championship meet format in 1977.

Unfortunately, the new championship meet was met with resistance from coaches who believed that it served no purpose and added one too many meets into the season schedule. Some coaches initially viewed the meet as a burden because it was scheduled so closely to the truly important state-qualifying meets. Many county teams

opted not to attend the first several county championship meets, or they simply sent their junior varsity squads. By 1981, the Montgomery Journal described the county meet attendance as "dismal." (Niewiaroski, 1981, Oct. 30)

In 1981, attendance at the county championship meet became mandatory, but some teams still sent their JV squads (Niewiaroski, 1981, Nov. 2). Bellman continued to champion the meet despite the resistance. In 1985, he moved the meet to Calverton-Fairland Park closer to his school (Kennedy HS) and when he took the coaching job at newly-opened Watkins Mill High School and later Blake High School, the meet followed him there, too.

Maybe some coaches' arms had to be twisted, or maybe the meet simply gained traction due to the awards, the media recognition, the bragging rights or simply the spirit of the competition. By the mid-1980's, the county championship meet was an annual tradition and the county crowns became coveted prizes for the elite athletes and teams.

As Bellman prepared to step away from coaching, Herb Tolbert of Gaithersburg High School picked up the reins and hosted the county championship meet at Gaithersburg High School almost every year from 2000 to present. The course initially utilized the Gaithersburg High School campus and Bohrer Park, but in 2011, the meet moved entirely to Bohrer Park due to construction on the Gaithersburg High School campus.

For the purposes of this book, the first Montgomery County Championship Meet with boys and girls was in 1977.

## Historical Throwback: 1979, 1989, 1999, 2009, 2018

**1979** – Churchill swept boys and girls county titles for the second consecutive year. Debbie Wortman from Magruder and John Neff from Einstein were individual county champions in 12:23 (2 Miles) and 15:38 (3 Miles), respectively.

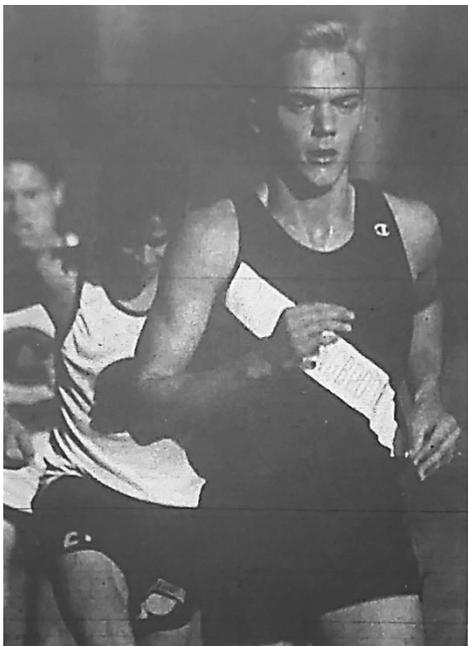

Both Neff and Wortman were surprise winners according to the 1979 Montgomery Sentinel recap. The article described freezing winds on the day of the meet at Lake Needwood. Wortman had to hold off a hard-charging challenger in Rockville's Cindy Raley (12:26). Neff took off with a full mile to go and expected Peary's Doug Halpin to go with him, but it never happened.

The Montgomery County Championship Meet still lacked support from some coaches in 1979. Montgomery Journal and Montgomery Sentinel articles focused more on who was not at the meet rather than who shined at the meet, perhaps justifiably so. The outcomes at later district and state meets were quite different.

**1989** – The county meet moved to newly opened Watkins Mill High School where runners were met with trails and hills. The 1989 girls race will forever have an asterisk in place of a winning time due to multiple runners who made a wrong turn but were not disqualified. A 1989 Montgomery Journal article explained that Gaithersburg's Heather Codd made the wrong turn while leading the race and several girls went with her. Codd's victory was upheld but finish times were discarded for the top 7 runners in the race.

Springbrook's David Hickey implemented a strategy to run out front, knowing that it would be difficult to pass his opponents on trails. To this day, he is the only Springbrook athlete to win an individual cross country county title.

Whitman High School was heavily favored to win the boys and girls team titles and asserted their dominance without their #1 runners. Whitman's presumed #1 boy, Brian Schief, missed the entire season with injury, and its #1 girl, Craig Lake, missed the meet with a stomach virus according to the Montgomery Journal. Whitman's boys and girls won the county meet by 40+ points. It was the Whitman boys' second county title and the Whitman girls' fifth all-time county title.

**1999** – The Whitman boys won their fifth consecutive county title, eighth team county title of the 1990's, and twelfth team county title in meet history. Now in 2019, Whitman has 14 boys county titles and no other boys team has won more than 4.

A rivalry between the Quince Orchard and Walter Johnson girls turned into a blowout, 27 to 91, in favor of the WJ Wildcats. With five runners in the top ten, 27 was the lowest point total ever recorded at the Montgomery County Championship Meet. It was Walter Johnson's second of five consecutive county titles and arguably their strongest team of the era.

QO's top runner, Samantha Lawrence, missed the meet and the remainder of the season with a stress fracture according to the Montgomery Journal. In her absence, a new star from Quince Orchard emerged when Karen Pulliam won her first major race at the county championship meet. It was the first of three consecutive cross country county titles for Pulliam who was also an eventual two time state champion.

Magruder's Matt Seymour had been running well leading up to the Montgomery County Championship Meet but still caught some people by surprise in winning the county title at Blake High School in 15:58.45. He had been the top Montgomery County runner at the Georgetown Prep Classic a week earlier but truly established himself by winning the county meet.

**2009** – Seldom had there been a more heavily favored county champion than Whitman's Andrew Palmer in 2009. Palmer won the county race by 30 seconds in 15:43 on his way to winning the state title. Likewise, the Walter Johnson boys team was heavily favored to win their second consecutive team title and won with an average time of 16:40, 31 seconds faster than the average time of the second place team. WJ's 2009 boys team point total of 46 remains the lowest boys team score recorded in the era of 25 MCPS schools.

All the drama was on the girls' side where fans were not quite sure if Wootton senior Jessie Rubin was ready to hang with the big dogs. It was a loaded race and Rubin delivered with a ten second win in 18:49 over a field that included past county and state champions plus a few future county and state champions. Rubin left no doubt about her talent when she later won the state title and became the first Maryland girl to qualify for NXN.

Whereas the Walter Johnson girls were considered the dominant MCPS team from the late 90's into the early 2000's, Northwest rose to prominence in 2003 and won five of six county titles between 2003 and 2008. Northwest was heavily favored to win again in 2009, but Walter Johnson pulled off arguably the upset of the decade with an unexpected breakout performance by their #5 runner, Maria Moersen. WJ scored 62 with an average time of 20:02 while Northwest scored 66 with an average time of 20:03.

**2018** – It was the first county championship meet since 2005 where rain was a factor. Muddy conditions significantly slowed times, and Northwood's Obsaa Feda navigated the mud to his first county title in 16:00. Northwood won its first team county title on the boys' side while the Whitman girls won their tenth all-time county title. Richard Montgomery sophomore Charlotte Turesson won her first major championship in 19:02 after breaking away from Sherwood freshman Katie Kaneko.
