

Montgomery County Cross Country Championship Meet

Record Book

Presented by moco-running.com

2016

Dear Reader,

Thank you for purchasing this cross country record book. I have long admired the detailed state meet programs and state record books published by the MPSSAA. I desired similar record books for the Montgomery County Championship Meets, but no such books existed. Furthermore, detailed meet results were all but lost to newspaper archives. To me, this was not acceptable in the digital world in which we live today.

For the past two years, I sought out results for every county championship meet for cross country, indoor track, and outdoor track. This involved many hours at a microfilm machine and digging through old boxes of junk belonging to coaches who hang on to such things. Many more hours were spent organizing the collected data so that the results are now available online and sorted several ways in this record book. After sifting through the data found in these pages, I know that you will agree that the effort was well worth it.

In future revisions, I will not only update the lists and rankings to reflect the most recent county championship meet, I also hope to sprinkle in more tidbits about the history of the meet. Your feedback and encouragement for major undertakings like this is welcome.

Mocorunning.com has been a source of cross country and track & field news, results, statistics, analysis, and photographs for Montgomery County since 2006. Mocorunning.com is not affiliated with MCPS, but it is owned and operated by a proud product of Gaithersburg High School and MCPS. I hope that you enjoy reading this book as much as I enjoyed creating it.

Montgomery County Cross Country Championship Meet History

What is a county championship meet? From the mid-1980's and thereafter, the answer is obvious: it is the meet where every team in the county competes for bragging rights to secure a county ranking for the year, or better yet...a county championship title. Presently, the county championship is a meet that coaches and athletes circle on their calendars every year. It is a celebration of the best young runners in our community, regardless of school size or classification.

That definition of a county championship was not the definition known to coaches and athletes prior to the mid-70's. In the early-to-mid 70's, the term "county meet" referred to the collection of district meets. The district meets were the qualifying races for the state championship meet. The districts were divided into classifications: "AA" (largest), "A", "B", and "C" (smallest). Sometimes, the smaller classifications were combined into "BC" or "ABC" races. These district meets consisted of only Montgomery County schools and therefore the combination of district races was also referred to as the county championship meet. Multiple county champions were named each year - one for each classification. Those early county champions prior to 1977 were more akin to today's regional champions.

The present day notion of a "classless" county championship meet was in a sense born out of the evolution of women in running. Dottie Rowe from Gaithersburg High School was the first female high school runner in Montgomery County. In 1971, Rowe petitioned to run on the boys cross country team at her school. After initially being denied, that ruling was overturned and she ran with the boys team for the season. This paved the way for girls cross country in Montgomery County. (Williams, 1977)

By 1973, there were enough female runners in Montgomery County that some schools could field complete girls teams with five or more girls. These teams could compete in dual meets and invitationals, but cross country was not yet an official sport sanctioned by the MPSSAA for girls. Because there were no state championship races for girls, there were also no district meets for girls and the season might have ended abruptly after the last scheduled invitational meet. Instead of allowing this to happen, B-CC High School head coach Kerry Ward organized the first county championship meet for girls, a 2.3 mile hilly run at Lake Needwood. The inaugural race was completed by 37 girls. B-CC won that first team title behind individual champion Gale Morse (13:46). Whitman (2nd), Gaithersburg (3rd), and Springbrook (4th) were the other complete teams. Some of the participants nicknamed the meet the "Ms. Cross Country Championship" as an effort to draw attention to the fact that girls were running cross country. (Boss, 1973)

Under leadership of Coach Greg Dunston, Woodward High School took over ownership of the girls county championship meet in 1974 before finally in 1975 cross country became an officially sanctioned sport for girls in Maryland. Due to low statewide participation, there would be only one state championship race for girls with all classifications combined into one (as opposed to four boys' classifications). The girls then had a state-qualifying district race just like the boys, and because all classifications were combined into one, the district race for girls was exactly the same as the previous two county championship meets for girls.

In 1976, the state and district levels divided girls into two classifications based on school size, "AA" and "ABC." This ended the "classless" county championship race in Montgomery County, but one coach kept the idea alive. Coach Allan Bellman of Kennedy High School pushed for a true county championship meet, and his idea was realized with all teams combined into a single race in a new county championship meet format in 1977.

Unfortunately, the new championship meet was met with resistance from coaches who believed that it served no purpose and added one too many meets into the season schedule. Some coaches initially viewed the meet as a burden because it was scheduled so closely to the truly important state-qualifying meets. Many county teams

opted not to attend the first several county championship meets, or they simply sent their junior varsity squads. By 1981, the Montgomery Journal described the county meet attendance as "dismal." (Niewiaroski, 1981, Oct. 30)

In 1981, attendance at the county championship meet became mandatory, but some teams still sent their JV squads (Niewiaroski, 1981, Nov. 2). Bellman continued to champion the meet despite the resistance. In 1985, he moved the meet to Calverton-Fairland Park closer to his school (Kennedy HS) and when he took the coaching job at newly-opened Watkins Mill High School and later Blake High School, the meet followed him there, too.

Maybe some coaches' arms had to be twisted, or maybe the meet simply gained traction due to the awards, the media recognition, the bragging rights or simply the spirit of the competition. By the mid 1980's, the county championship meet was an annual tradition and the county crowns became coveted prizes for the elite athletes and teams.

As Bellman prepared to step away from coaching, Herb Tolbert of Gaithersburg High School picked up the reins and hosted the county championship meet at Gaithersburg High School almost every year from 2000 to present. The course initially utilized the Gaithersburg High School campus and Bohrer Park, but in 2011, the meet moved entirely to Bohrer Park due to construction on the Gaithersburg High School campus.

For the purposes of this book, the first true Montgomery County Championship Meet with boys and girls was in 1977.
