Record Book

Dear Reader,

Thank you for downloading this record book. I have long admired the detailed state meet programs and state record books published by the MPSSAA. I desired similar record books for the Montgomery County Championship Meets, but no such books existed. Furthermore, detailed meet results were all but lost to newspaper archives. To me, this was not acceptable in the digital world in which we live today.

I sought out results for every county championship meet for cross country, indoor track, and outdoor track. This involved many hours at a microfilm machine and digging through old boxes of files belonging to coaches who hang on to such things. Many more hours were spent organizing the collected data so that the results are now available online and sorted several ways in this record book. After sifting through the data found in these pages, I know that you will agree that the effort was well worth it.

Mocorunning.com has been a source of cross country and track & field news, results, statistics, analysis, and photographs for Montgomery County since 2006. Mocorunning.com is not affiliated with MCPS, but it is owned and operated by a proud product of Gaithersburg High School. I hope that you enjoy reading this book as much as I enjoyed creating it.

Montgomery County Cross Country Championship Meet History

What is a county championship meet? From the mid-1980's and thereafter, the answer is obvious: it is the meet where every team in the county competes for bragging rights to secure a county ranking for the year, or better yet: a county championship title. Presently, the county championship is a meet that coaches and athletes circle on their calendars every year. It is a celebration of the best young runners in our community, regardless of school size or classification.

That definition of a county championship was not the definition known to coaches and athletes prior to the mid-70's. Prior to 1977, the term "county meet" referred to the collection of district meets. The district meets were the qualifying races for the state championship meet. The districts were divided into classifications: "AA" (largest), "A", "B", and "C" (smallest). Sometimes, the smaller classifications were combined into "BC" or "ABC" races. These district meets usually consisted of only Montgomery County schools and therefore the combination of district races was also referred to as the county championship meet. Multiple county champions were named each year - one for each classification. Those early county champions prior to 1977 were more akin to today's regional champions.

The present day notion of a "classless" county championship meet was in a sense born out of the evolution of women in running. Dottie Rowe from Gaithersburg High School was the first female high school runner in Montgomery County. In 1971, Rowe petitioned to run on the boys cross country team at her school. After initially being denied, that ruling was overturned and she ran with the boys team for the season. That paved the way for girls cross country in Montgomery County. (Williams, 1977)

By 1973, there were enough female runners in Montgomery County that some schools could field complete girls teams with five or more girls. These teams could compete in dual meets and invitationals, but cross country was not yet an official sport sanctioned by the MPSSAA for girls. Because there were no state championship races for girls, there were also no district meets for girls and the season might have ended abruptly after the last scheduled invitational meet. Instead of allowing this to happen, B-CC High School head coach Kerry Ward organized the first county championship meet for girls, a 2.3 mile hilly run at Lake Needwood. The inaugural race was completed by 37 girls. B-CC won that first team title behind individual champion Gale Morse (13:46). Whitman (2nd), Gaithersburg (3rd), and Springbrook (4th) were the other complete teams. Some of the participants nicknamed the meet the "Ms. Cross Country Championship" as an effort to draw attention to the fact that girls were running cross country. (Boss, 1973)

Under leadership of Coach Greg Dunston, Woodward High School took over ownership of the girls county championship meet in 1974 before finally in 1975 cross country became an officially sanctioned sport for girls in Maryland. Due to low statewide participation, there would be only one state championship race for girls with all classifications combined into one (as opposed to four boys' classifications). The girls then had a state-qualifying district race just like the boys, and because all classifications were combined into one, the district race for girls was exactly the same as the previous two county championship meets for girls.

In 1976, the state and district levels divided girls into two classifications based on school size, "AA" and "ABC." This ended the "classless" county championship race in Montgomery County, but one coach kept the idea alive. Coach Allan Bellman of Kennedy High School pushed for a true county championship meet, and his idea was realized with all teams combined into a single race in a new county championship meet format in 1977.

Unfortunately, the new championship meet was met with resistance from coaches who believed that it served no purpose and added one too many meets into the season schedule. Some coaches initially viewed the meet as a

burden because it was scheduled so closely to the truly important state-qualifying meets. Many county teams opted not to attend the first several county championship meets, or they simply sent their junior varsity squads. By 1981, the Montgomery Journal described the county meet attendance as "dismal." (Niewiaroski, 1981, Oct. 30)

In 1981, attendance at the county championship meet became mandatory, but some teams still sent their JV squads (Niewiaroski, 1981, Nov. 2). Bellman continued to champion the meet despite the resistance. In 1985, he moved the meet to Calverton-Fairland Park closer to his school (Kennedy HS) and when he took the coaching job at newly-opened Watkins Mill High School and later Blake High School, the meet followed him there, too.

Maybe some coaches' arms had to be twisted, or maybe the meet simply gained traction due to the awards, the media recognition, the bragging rights or simply the spirit of the competition. By the mid-1980's, the county championship meet was an annual tradition and the county crowns became coveted prizes for the elite athletes and teams.

As Bellman prepared to step away from coaching, Herb Tolbert of Gaithersburg High School picked up the reins and hosted the county championship meet at Gaithersburg High School almost every year from 2000 to present. The course initially utilized the Gaithersburg High School campus and Bohrer Park, but in 2011, the meet moved entirely to Bohrer Park due to construction on the Gaithersburg High School campus.

For the purposes of this book, the first Montgomery County Championship Meet with boys and girls was in 1977.

Historical Throwback: 1984, 1994, 2004, 2014, 2023

1984 – The Montgomery County Championship Meet was earlier in the season in 1984. It was scheduled prior to the Georgetown Prep Classic and even before some MCPS dual meets. Kennedy High School's multiple time state champion and two-time defending Montgomery County XC champion, Beth Jacobson skipped the 1984 county meet in favor of the William and Mary Invitational, which deprived fans of a Jacobson-DeVore showdown according to the Montgomery Journal. Churchill's Tammy DeVore ran away with the county crown in 15:12 (2.5 miles) and silenced any doubters by defeating Jacobson the following week at the Georgetown Prep Classic. Jacobson went on to win the Class A state title while DeVore was second in Class AA.

Peary High School, the 1983 Montgomery County Championship boys runners-up, closed. This spelled a meteoric rise for the Rockville High School boys who went unscored at the 1983 Montgomery County Championship Meet but received an influx of talent in 1984. The new look Rockville squad squeezed five runners in the top 18 in 1984, led by second place Dave Petzold, to record one of the lowest point totals in meet history - 45 points. The instant success did not last. It remains the only team title in meet history for Rockville High.

The Whitman girls also won their first Montgomery County title, but unlike Rockville, they went on to win a few more (ten more as of this writing prior to the 2024 county meet).

The individual male champion was Eric Meleney of Whitman, who covered 3 miles at Lake Needwood in 16:00. Meleney outright won the seeded race at the Georgetown Prep Classic the following week and went on to win the AA state title.

~~~

**1994** – Walter Johnson High School's Sally Glynn was already considered the most decorated distance runner in Montgomery County history by her junior year in the fall of 1994. At the Montgomery County Championship, one week after dominating the Georgetown Prep Classic, she put on a performance for the ages. Her 17:06.87 performance at the Poolesville Polo Grounds won the county title by 110.6 seconds, the widest margin of victory in meet history. In the Montgomery Journal, Glynn called the race “so-so” because it was windy. Her performance would have ranked 11<sup>th</sup> in the boys championship race that day. Glynn went on to place second at the Footlocker National Championship later that fall.

While Glynn set an unofficial record that will never be broken for widest margin of victory, Seneca Valley's Jamie Mills won the boys county title with one of the slimmest margins of victory in meet history, 0.55 seconds. Mills sprinted past Quince Orchard's Alex Rhodes to win in 16:33.0.

In 1994, it was the eighth time that a team swept boys and girls titles at the Montgomery County Championship, but as of this writing, it has only happened one more time in the thirty years since (2013 B-CC). Quince Orchard's boys sustained success at the county meet for a third consecutive year while QO's girls won the first of three county titles over four years.

~~~

2004 – Just like the year prior, Gaithersburg's Zach Martinez kept Walter Johnson's Andrew Jesien within his sights, but Jesien became the fourth boy to win two Montgomery County XC titles when he won over Martinez, 15:50.8 to 15:54.9 in 2004. At that point, Jesien and Martinez held the four fastest time in meet history on the Gaithersburg High School county course. As consolation to the home team, it was Gaithersburg High School's second consecutive boys team title and the third in four years.

It was the Northwest High School girls second of what would become four consecutive county titles. Halsey Sinclair of Blair High School won her second of three individual county titles with her fastest time on the Gaithersburg High School course, 18:28.7.

~~~

**2014** – 2014 produced the narrowest margin of victory in Montgomery County Championship Meet history. Northwest High School's Diego Zarate edged Whitman High School's Evan Woods, 15:47.47 to 15:47.69. The two rivals duked it out a few more times with Zarate winning the 4A West region and Woods having the last laugh at the 4A state championship.

Bethesda Chevy Chase's Nora McUmber produced no such drama in winning her third consecutive county title. McUmber won by 29 seconds in 18:12.45. She became the fourth of five girls in meet history to win three or more individual county titles. Mocorunning had projected a freshman named Abigail Green to defeat the senior McUmber, but the projection was off by about a week. Green won the 4A West region over McUmber 12 days later and eventually won three XC county titles of her own.

2014 ended a fifteen year drought for boys team titles for the Whitman boys who are the winningest team in history but had not won a team title since 1999 at that point. The Walter Johnson girls ended B-CC's three year run of girls team county titles.

~~~

2023 – It was the third time in meet history that the individual male and female county champions were from the same school. Churchill junior Nathaniel Swanson won the boys team title in 15:51. Churchill freshman Katherine Morey became the fifth freshman in meet history to win the county title with her 24 second victory in 18:54.

Walter Johnson High School won its 12th girls team title in meet history and sixth in nine years. Wootton High School won its second male team county title in meet history.
